Last modified by	yark (2760)
Numerical id	9
Author	yark (2760)
Entry type	Theorem
Classification	msc 20E05

Every <http://planetmath.org/Subgroup> subgroup of a free group is free. This theorem is named after Jakob Nielsen, who in 1921 proved that every subgroup of a free group of <http://planetmath.org/FreeGroup> finite rank is free, and Otto Schreier, who proved the full result in 1927.
